

# Istruzioni di Montaggio

## *Assembly Instructions*

## JUDD base

## Contenitore | *Container*

Designer: Alessandro Di Prisco  
Anno | Year: 2022  
Materiali | Materials: Contenitore base in metallo verniciato | *Painted metal wall unit*

1. Posizionare a terra il basamento e regolare i piedini e mettere in bolla

1. Place the plinth on the ground and adjust the feet and levelling

2. Appoggiare il primo modulo fissandolo con le viti M6x20 come nella figura "A"

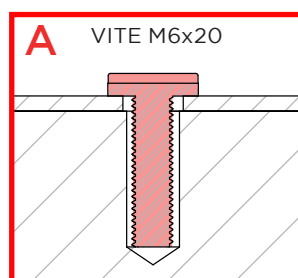

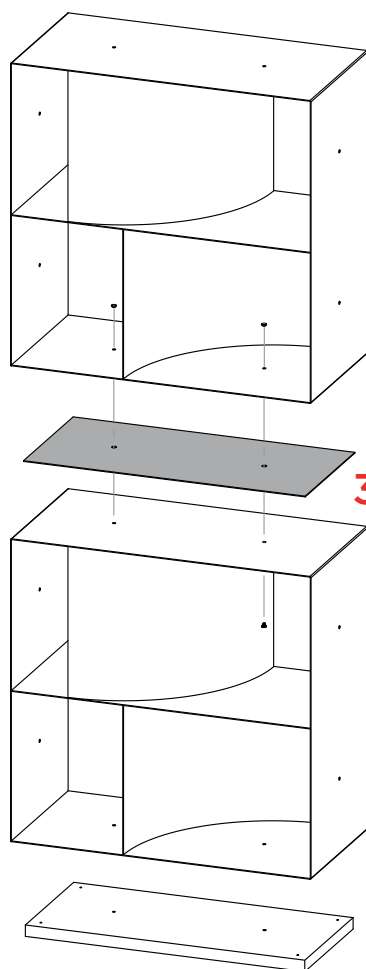

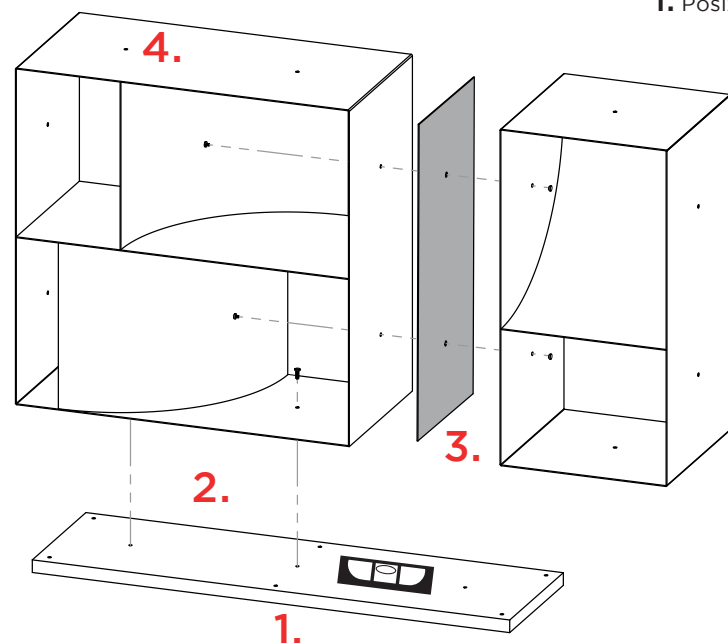

2. Support the first module by fastening it with the M6x20 screws as in figure 'A'

3. Ripetere la stessa operazione precedente aggiungendo sul lato condiviso gli spessori in gomma (prima affiancandoli e poi sovrapponendoli) e fissare con le viti M5x7 come nella figura "B"

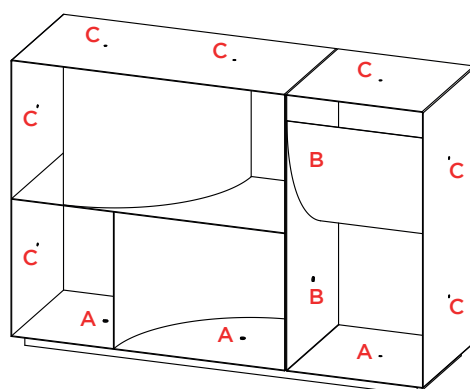

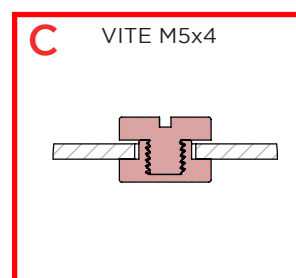

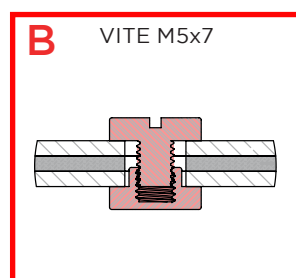

3. Repeat the same operation as above, adding rubber shims on the shared side (first side by side and then overlapping them) and fasten with M5x7 screws as in figure 'B'

4. A scelta, per tappare i fori sui lati esterni avvitare le viti M5x4 come mostrato nella figura "C"

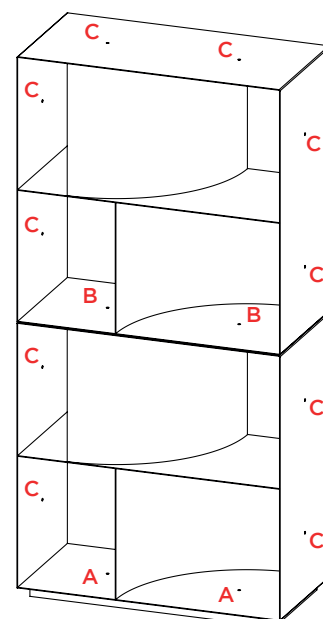

4. Optionally, to plug the holes on the outer sides, screw in M5x4 screws as shown in figure "C"

Accoppiamenti  
Pairings

4.
